7. Species Diversity at Each Site	25
8. 2006 Frogwatch Volunteers	26
Appendix 1. Presence and maximum abundance of frog species detected at each site.	

ACKNOWLEDGMENTS

The success of the ACT and Region Frogwatch Program is not possible without the enthusiasm and commitment of all of our Frogwatch volunteers. Thank you for your energy and generosity!

Murray Evans from Environment ACT and Will Osborne from the University of Canberra, for their presentations at our training events, excellent technical advice and assistance with species identification

Jamie Tan and Peter Davey for their assistance at our training events.

Molly Henson and Ruth White from the Australian National Botanic Gardens for providing an excellent venue for our training seminars.

Damian Wall, ACT Technical Support Officer for producing the Frogwatch maps.

Ederic Slater, who allows us to copy his audio CD, "Frog Calls of the ACT and South East NSW" at minimum cost for distribution to volunteers.

The Amphibian Research Centre and www.frogs.org.au for permission to use their photographs for various Frogwatch resources and this report.

The Ginninderra Catchment Group for initiating and administering the project.
