

28th October 2013

Invitation to participate in an “Action on Weeds in Wallaroo” project

Dear Landholder,

Ginninderra Catchment Group (GCG) is a local community organisation that supports and coordinates landcare activities in the northwest capital region, including the Hall and Wallaroo areas. We have been successful in receiving funding from the Federal Government’s Community Landcare Grants program to support landholders in improved weed management.

As a landholder in the area of our new project “Action on weeds near Wallaroo: creating productive landscapes through collaborative and systematic weed control”, we invite you to be involved.

Our goal is to take a coordinated, catchment-scale approach to weed management. Weeds (including three identified weeds of national significance) are impacting on agricultural productivity and biodiversity in the Wallaroo and Hall areas. This project aims to support landholders in your area to plan, implement and monitor your land management for improved weed control. As such, this project will involve a number of workshops and skill-sharing days. We are also able to provide advice, networks and some equipment to help your weed management.

If you are interested in being part of this project please respond as soon as possible using the form overleaf. This form is also available on our website www.ginninderralandcare.org.au. Please contact GCG directly (by phone or email) if you have any questions or would like to discuss any aspects of the project.

We look forward to hearing from you. We also invite you to our first workshop for this project, which will be held on Sunday 10th November, see attached flier.

Yours sincerely,

A handwritten signature in blue ink, appearing to be 'K. Preuss'.

Karissa Preuss
Coordinator,
